SUBJECT INDEX

1-Acetylcyclohexene,
spectroscopic and theoretical studies on the internal rotational barrier of 1-acetylcyclohexene 119

Deltic and squaric acids
a theoretical study of electronic structures and vibrational frequencies of deltic and squaric acids, $C_nO_nH_2$ ($n = 3$ and 4) 163

Dithioformic acid,
structures, relative stabilities and barriers to internal rotation of dithioformic acid and its isomers 153

1,3,5-Hexatriene,
ab initio structures and vibrational analysis of two planar configurations of 1,3,5-hexatriene 131

Metal aggregates,
a semiempirical method for the study of large metal aggregates. Part II. Alkaline aggregates CC from 9 to 89 atoms 71
N-Methyl-*N*-nitro-*N*-nitrosoguanidine,
a non empirical and an MNDO study of *N*-methyl-*N*-nitro-*N*-nitrosoguanidine 175
Molecular strain,
molecular strain from valency 101

Paraquat,
electronic structure and conformational analysis of paraquat in three oxidation states 25
Polyatomic molecules,
semi-quantitative investigation of a non-adiabatic problem in the theory of electron-vibrational states of polyatomic molecules 1
Polycyclic benzenoid aromatic hydrocarbons,
theoretical model of activation of carcinogenic polycyclic benzenoid aromatic hydrocarbons. Possible new classes of carcinogenic aromatic hydrocarbons 141
1,1,1 Propellane,
a novel interpretation of bonding in 1,1,1 propellane and theoretical calculation of its unimolecular rearrangement 109
Purines,
tautomerism of biologically important pyrimidines and purines. Part I. Theoretical predictions 45
Pyrimidines,
tautomerism of biologically important pyrimidines and purines. Part I. Theoretical predictions 45

SiC_2,
an ab initio study of SiC_2 protonation 33
Solvent effect,
theoretical study of the solvent effect on the quadrupole coupling constants of some nuclei 61

Water molecule,
contact transformational and quantum chemical calculations of the integrated intensities of fundamental, first and second overtone, binary combination and difference infrared absorption bands of the water molecule 81
